The VA Black Hills PGY1 Pharmacy Residency will train pharmacists in the setting of a large, rural VA health care system. While both inpatient and outpatient learning experiences are required during this program, pharmacist involvement in ambulatory care is broad. An elective teaching certificate program is available which equips residents to pursue a position in an academic setting. Feedback from both residents and preceptors is valued and used to proactively customize each resident’s experience.

Elective

- Oncology (Longitudinal)
- Pain Management (Longitudinal)
- Mental Health (Longitudinal)

The VA BHHCS Ambulatory Care PGY2 Residency will further develop the resident’s skills in direct patient care, leadership, and education through a variety of experiences tailored to the individuals needs and goals. Upon successful completion of the program, graduates will be equipped to obtain an ambulatory care certification and serve as an ambulatory care clinical pharmacist in either the clinic setting or academic setting.

Core Rotations

- Patient Aligned Care Team (Longitudinal)
- Anticoagulation (Longitudinal)
- Community Living Center (Longitudinal)
- Home Based Primary Care (Longitudinal)
- Internal Medicine 1 (Rotational)
- Internal Medicine 2 (Rotational)
- Medication Use Process (Longitudinal)
- Professional Development (Longitudinal)
- Practice Coverage (Longitudinal)

Other Required Experiences

- Orientation (Concentrated)
- Practice Management (Longitudinal)
- Residency Project (Longitudinal)
- Drug Information (Longitudinal)
- Practice Coverage* (Concentrated or Longitudinal)

Elective Options (Select Two)

- Emergency Department/Urgent Care
- Mental Health
- Pain Management
- Home Based Primary Care “HBPC”

Electives may be longitudinal, compressed, or rotational depending on resident interest, skill and background.

Additional Experiences

- Teaching Certificate (Longitudinal)
